OFFICE OF THE SANGGUNIANG BARANGAY

Message of Punong Barangay

As your Punong Barangay, I am proud to present the Barangay Nutrition Action Plan (BNAP) for 2025—a roadmap that reflects our collective dedication to improving the health and nutrition of every resident, most especially our children, pregnant women, and those most at risk.

This year, we embrace the theme “**Masustansyang Pagkain, Kaagapay sa Bagong Kinabukasan!**” because we believe that proper nutrition is not just about food—it is about giving our people the chance to live healthier, more productive, and more hopeful lives. Through this plan, we will implement targeted programs that focus on nutrition education, feeding programs, home and community gardening, and continuous health monitoring for our constituents.

We call on all families, youth, and community stakeholders to actively take part in this mission. Together, we can fight malnutrition, reduce hunger, and build a stronger, healthier barangay.

Let us continue working together toward a brighter tomorrow for New San Roque. With unity, compassion, and action, we can truly nourish our future.

Maraming salamat po, asin Dios mabalos sa saindong gabos na suporta.

HON. YOLANDA M. BERIÑA

OFFICE OF THE SANGGUNIANG BARANGAY

Message of Kagawad on Health
(1st Quarter 2025)

The Committee on Health of Barangay New San Roque fully supports and takes pride in the implementation of the Barangay Nutrition Action Plan (BNAP) 2025. This comprehensive plan is our united response to the ongoing challenges of malnutrition, food insecurity, and health disparities in our community.

With the theme “**Masustansyang Pagkain, Kaagapay sa Bagong Kinabukasan,**” we are reminded that proper nutrition is key to unlocking every individual’s full potential. A healthy barangay starts with healthy families, and it is our mission to ensure that every household has access to nutritious food, quality health services, and information that empowers them to make healthy choices.

Through this plan, we aim to strengthen our barangay health and nutrition programs, support our Barangay Nutrition Scholars (BNS), and collaborate closely with health workers, day care centers, schools, and families. Our efforts will focus on nutrition education, feeding programs, maternal and child care, and sustainable community gardening.

We call on everyone—parents, youth, and partners—to join hands in this mission. Together, let us build a future where no one in New San Roque suffers from hunger or poor nutrition.

OFFICE OF THE SANGGUNIANG BARANGAY

Message of Kagawad on Health (2nd Quarter 2025)

As the Barangay Kagawad entrusted with the Committee on Health, I extend my sincere support to the implementation of the **Barangay Nutrition Action Plan (BNAP) 2025** for the second quarter. This quarter marks another important step in our collective journey toward a healthier and more nourished community.

We recognize the continued challenges brought by undernutrition, stunting, and other health concerns affecting our children and families. That is why our focus remains on strengthening health and nutrition services, including **supplemental feeding, maternal and child health care, growth monitoring, and community awareness campaigns**. These initiatives are vital in ensuring that no one in our barangay is left behind when it comes to proper nutrition and access to basic health services.

I urge every household to actively participate in our programs and take ownership of practices that promote good health and nutrition. With the dedication of our health workers, the guidance of the Barangay Nutrition Committee, and the cooperation of our residents, we can achieve the goals of BNAP 2025 and secure a brighter and healthier future for our community.

Together, let us continue to nurture lives, strengthen families, and build a resilient Barangay New San Roque.

Message of Barangay Nurse

On behalf of the Barangay Health Station, I am honored to share our commitment to the **Barangay Nutrition Action Plan (BNAP) 2025**. This plan serves as our collective roadmap to improve the health and nutritional well-being of our community, especially our children, pregnant and lactating mothers, and other vulnerable sectors.

As a frontliner in health care, I see every day the importance of proper nutrition in preventing diseases, supporting growth, and ensuring productivity. Malnutrition, underweight, and other nutrition-related concerns remain challenges that we must address with compassion, consistency, and collaboration. Through BNAP 2025, we aim to strengthen our programs on **nutrition education, growth monitoring, micronutrient supplementation, maternal and child care, immunization, and disease prevention**.

I humbly call on every family in our barangay to take part in this shared responsibility. The success of BNAP depends not only on health workers but also on the active participation of parents, teachers, community leaders, and every resident. With unity and dedication, we can build a healthier, stronger, and more resilient community.

Together, let us make “**Nutrition for All, Health for All**” a reality in Barangay New San Roque.

Punong Barangay

(Roles and Functions in BNAP 2025)

- Serves as the **Chairperson of the Barangay Nutrition Committee (BNC)**.
- Provides **overall leadership and supervision** in the formulation, implementation, monitoring, and evaluation of the BNAP.
- Ensures that nutrition programs and activities are **integrated into the Barangay Development Plan** and supported by the annual budget.
- Mobilizes the Sangguniang Barangay to enact **resolutions or ordinances** supporting health and nutrition programs.
- Leads in the **allocation of funds and resources** for nutrition-related projects such as feeding programs, health campaigns, and sanitation improvements.
- Strengthens **coordination with municipal, provincial, and national agencies** for technical and financial support.
- Encourages the active participation of **barangay officials, community health workers, parents, and other stakeholders** in BNAP implementation.
- Provides **policy direction** to ensure that programs address malnutrition, underweight, stunting, and other nutrition-related
- issues in the barangay.
- Monitors and evaluates the **progress of nutrition programs**, ensuring accountability and sustainability.
- Acts as a **champion of health and nutrition advocacy**, setting an example of commitment to the well-being of the community.

Committee Chairman on Health

(Barangay Kagawad designated to chair the Committee on Health in the Sangguniang Barangay)

- Leads the **Barangay Committee on Health** and oversees the planning and implementation of health programs.
- Ensures that health and nutrition programs (BNAP, feeding, sanitation projects, etc.) are integrated in the **Barangay Development Plan**.
- Works closely with the **Barangay Nurse, BHWs, BNS, and other frontline workers** to address health concerns.
- Initiates barangay legislation (ordinances and resolutions) related to **health, sanitation, population, and nutrition**.
- Monitors and evaluates the status of **health projects and services** in the barangay.
- Represents the barangay in **municipal or city health-related councils and meetings**.
- Mobilizes resources and seeks support from government and NGOs for health programs.
- Serves as a **link between the barangay council and health frontliners**, ensuring policy support and budget allocation for health initiatives.

Barangay Nurse

(Barangay Health Station-based nurse assigned by the LGU/DOH)

- Provides **primary health care services** in the barangay, including treatment of minor illnesses and first aid.
- Assists in the implementation of **Maternal and Child Health programs** (prenatal, postnatal, newborn care, immunization).
- Conducts **growth monitoring, nutrition assessment, and counseling**.
- Supports **family planning, reproductive health, and adolescent health programs**.
- Supervises and guides **Barangay Health Workers (BHWs), BNS, and other community health volunteers**.

- Leads in **health education campaigns** on disease prevention, sanitation, and proper nutrition.
- Prepares reports and health records for submission to the Municipal/City Health Office.

Roles and Functions

Barangay Health Workers (BHWs)

- Act as *frontliners* in delivering basic health services at the barangay level.
- Assist in **immunization, growth monitoring, deworming, and health campaigns**.
- Conduct **house-to-house visits** to monitor maternal and child health conditions.
- Provide **health education** and promote proper sanitation and hygiene.
- Refer patients to higher health facilities when necessary.

Barangay Rehabilitation Worker (BRW)

- Assist persons with disabilities (PWDs) and senior citizens in accessing health and social services.
- Facilitate rehabilitation activities and link families with government support programs.
- Promote awareness and understanding of disability concerns in the community.
- Keep records of PWDs and ensure they are included in barangay programs.

Barangay Nutrition Scholar (BNS)

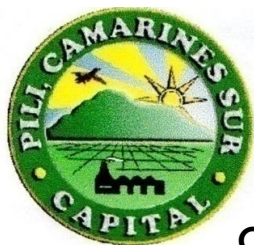

- Implement nutrition-specific programs such as **feeding, growth monitoring, and nutrition surveys**.
- Conduct **weighing and assessment** of children to detect undernutrition or malnutrition.
- Provide **nutrition education sessions** to parents and households.
- Coordinate with the Barangay Nutrition Committee in preparing the BNAP.
- Serve as the **nutrition focal person** in the barangay.

Barangay Service Point Officer (BSPO)

- Serve as a **community-based population and development worker**.
- Provide information and referral services on **family planning, responsible parenthood, and adolescent health**.
- Assist in the implementation of programs of the **Commission on Population and Development (POPCOM)**.
- Advocate for **population management and family welfare**.
- Coordinate with schools, youth, and parents on population-related education.

Child Development Workers (CDWs)

- Facilitate the **early childhood care and development (ECCD)** programs in daycare centers.
- Provide structured activities that promote **learning, nutrition, and values formation** for preschool children.
- Monitor the **growth and development** of children under their care.
- Educate parents on **child-rearing practices and early learning support**.
- Ensure safe, nurturing, and stimulating environments for young children.

OFFICE OF THE SANGGUNIANG BARANGAY

Introduction:

Barangay History:

In 1941, a group of Barangay residents headed by then Teniente Del Barrio Maximo Ampongan, Mr. Fortunato Regullano and Mr. Andres Estrada initiated and was successful in the division of Barangay San Roque into Old San Roque and New San Roque.

During the Japanese Regime, the Barangay chapel or locally called Ermita was constructed to serve as camp and place of meeting during the Japanese occupation. Foxholes were built along this area to serve as protection during encounters and Japanese air raids. It was made out of nipa and bamboo in a lot owned by then Mr. Andres Estrada. Since then, the Ermita was became the center for barangay activities and occasions. The first concrete barangay hall was also constructed in this place.

Before the separation of Old and New San Roque, the barangay celebrates its annual fiesta every 16th day of August in honor of its Patron Saint, San Roque. But after the separation and considering that the month of August is an off-harvest season, the residents decided to change the date of its annual fiesta celebration. Since then, Barangay New San Roque celebrates its fiesta every 16th day of December in consideration of harvest season in the area. Sharing of food and other harvest products during first night until the last night of Novena has become the tradition of the constituents in the barangay.

In 1958 Mr. Damaso Beltran was appointed as Kapitan Del Barrio by the majority of the people. He and the first barangay council governed the barangay up to 1963. Before the end of Kapitan Beltran's term, the first barangay election came about. Mrs. Honorata Regullano became the first elected barangay captain and the first woman to serve as head of the barangay. In 1965, Mrs. Regullano has vacated his position to run for the higher office. Mr. Gerardo Magtarayo replaced her and served up to 1967. Since the 1967 election up to the present, the barangay was run by 9 barangay captains. Some finished their term while some has unfortunately didn't finish their term due to different circumstances.

As of this day, the present Punong Barangay Hon. Yolanda M. Beriña which started her administration as a Punong Barangay since 2013 Barangay Elections.

RATIONALE

Barangay Nutrition Action Plan 2025 **Barangay New San Roque, Pili, Camarines Sur**

Barangay New San Roque recognizes that nutrition is a fundamental pillar of health, development, and human dignity. Despite various interventions in recent years, cases of malnutrition, undernutrition, and food insecurity remain a concern, especially among vulnerable groups such as children, pregnant women, lactating mothers, and senior citizens.

The Barangay Nutrition Action Plan (BNAP) 2025 is developed in alignment with national and local nutrition goals, with the aim of providing a strategic framework to address the nutritional needs of the community. It reflects the barangay's commitment to achieving **zero hunger**, improving the **overall health status** of the population, and promoting **sustainable food practices** at the household level.

This plan integrates evidence-based programs such as nutrition education, supplemental feeding, micronutrient supplementation, backyard gardening, and capacity-building for local health and nutrition workers. It is designed to be **inclusive, participatory, and responsive** to the real conditions and needs of the barangay.

Through the BNAP 2025, Barangay New San Roque reaffirms its role in building a **healthier, stronger, and more resilient** community—one where every resident has the right and opportunity to live a well-nourished and dignified life.

PHYSICAL INFRASTRUCTURES

1. Barangay Hall/ Session Hall- a 2-storey concrete building located at zone 4 of the barangay.
2. Barangay sports/cultural center- with elevated stage and basketball court.
3. Barangay Health Center- Zone 4
4. Barangay Tanod Outpost- a concrete building located along Maharlika highway, zone 3.
5. Barangay Day Care Center - Zone 4.
6. Barangay Chapel- Zone 6 and located along Maharlika highway, zone 5.
7. Pathways - built along all zones 1 to 6.
8. Box Culvert - infrastructure sponsored by KALAHI CIDSS located at zone 6.
9. Riprapping/ Slope Protection of Creek in from Zone 4 - Zone 6
10. Drainage Canal - Zone 2, Zone 3, Zone 4, Zone 5 and Zone 6
11. Covered Court -located at Zone 4
12. Basketball Court/ Solar Dryer -located at Zone 1
13. Evacuation Center - Zone 4
14. Senior Citizen building - Zone 4
15. Barangay Library - within barangay hall, Zone 4

New San Roque is divided into 6 zones, due to land area; Zone 6 was recently divided into two subdivisions, Zone 6A and Zone 6B. Zone 1 and Zone 2 are mainly residential near the town proper of Pili. Zone 3 is mostly residential areas. Home along the railways are also part of zone 3. Zone 4 is a residential area bounded by Anayan River. Most houses here are prone to flood during typhoon. Zone 5 is a combination of residential and commercial area where large warehouses are located along with other business establishments. Zone 6 has the largest land area and mostly composed of agricultural land.

One of the widest distributors of rice in the region is located in Zone 3, the **Partido Milling Corporation** together with other businesses of **Partido Group of Companies**. There is also the **TNSL Corporation**, a construction company located in Zone 3, New San Roque, Pili, Camarines Sur. There is an existing private school in the community, the **Camarines Science Oriented High School** where there is kindergarten, elementary, high school and Senior High School. The location of the left side of the **Pili Central School** is also part of the barangay. There are three (3) gas station located in the barangay, in Zone 2 is the **Quick Stop Gas Station**, Zone 3 is the **Total Gas Station** (in which as of this time is not operational) and Zone 5 is the **Manila Klean Fuel Station**. A birthing facility, “**Ava Pamundagan Birthing Center** “is located within the area, in Zone 5, New San Roque, Pili, Camarines Sur. There are also motor shops, **motorcycles dealers and retailers**, **grocery stores**, **lighting store warehouse**, **pet shops**, **paint store**, **construction supplies**, **battery supplies**, **spa and massage center**, **lending & financial institution** and **Rural bank** located in Zone 1, Zone 2, Zone 3, Zone 4 and Zone 5. Warehouses are mostly located in Zone 5, New San Roque, Pili, Camarines Sur.

Part of the Zone 4 and the Zone 6 are mostly agricultural land. Large portion of houses is located along the railways in Zone 1, Zone 2, Zone 3 and Zone 4, New San Roque, Pili, Camarines Sur.

In the Table 1 showed that in 2021, Zone 4 has 355, until 2024 with 391 which shows the increasing rate in population. Considering the data shown above, there are Purok with high number of Pregnant, Lactating, children 0-59 months, teenagers, adults and senior citizen.

TABLE 2. WATER AND SANITATION PROGRAM

PUROK	TOTAL HOUSEHOLD	HH WITH TOILET	HH WITHOUT TOILET	SHARED TOILET	PERCENTAGE	L1	L2	L3
1	65	60	5	5		57	0	8
2	65	44	21	14		62	0	3
3	63	47	16	13		60	0	3
4	90	59	31	18		90	0	0
5	70	54	16	7		70	0	0
6	86	67	7	13		77	0	9
7	65	54	11	7		58	0	7
TOTAL	504	385	107	77		474	0	30

In the Table 2, it shown the number of HH with Sanitary Toilet, among the Zone 6 has high number of HH with 67, while Zone 4 has higher number of HH without toilet with 31 has No Sanitary Toilet. For access to safe drinking water, Zone 4 has 90 HH of Level 1, 0HH of Level 2 and 0HHof Level 3 wherein this emphasizes to the ongoing improvement of Water System within the Barangay.

INTERVENTIONS TO ADDRESS MALNUTRITION

Activities	Intervention
1. SAM patient at Purok 3	1. Provision of RUTF, Ready to Use Therapeutic Foods to the patient 2. Enrollment to SAM registry and. 3. Endorsement to MHO and MedTech for Laboratory and its intervention
2. Identified 5 Moderately Acute Malnourished Children A. Patient 1: XXXX X. XXXXX B. Patient 2: XXXX X. XXXXX C. Patient 3: XXXX X. XXXXX D. Patient 4: XXXX X. XXXXX E. Patient 5: XXXX X. XXXXX	1. Endorsed to Brgy. For Supplementary Feeding Program of the Barangay to prioritize those Moderately Acute Malnourished Children of the Barangay 2. Conducted house visit to patients together with Midwife/Nurse
3. Coordination to BNC to address Malnutrition in the Barangay	1. Through the Punong Barangay and Kagawad on Health, prioritization of health programs to patients such as provision of Sanitary Toilet, access to safe drinking water, establishment of Food and Backyard Gardens and coordination to partner agency such as 4ps through MSWDO, Agriculture Office for the provision of Vegetable Seeds
4. Conduct 120 days feeding program to the beneficiary	1. Prior to the conduct of feeding program, coordination and planning was done at the Barangay Level such as: A. Meeting with BNC B. Resource Mobilization C. Coordination to stakeholders D. Coordination meeting to mothers of malnourished children

	E. Coordination to NDP/RM for deworming, vaccination status F. Finalization of project for target beneficiary
5. Upgrade of Anthropometric Tools	1. To ensure data accuracy of height and weight of the children

Situational Analysis

Walong gabay na tanong sa pagsusuri ng kalagayang pangnutrisyon

Anu-anong uri ng malnutrisyon ang mayroon sa barangay?

Ilan ang bilang ng may malnutrisyon sa barangay?

Sinu-sino ang may malnutrisyon sa barangay?

Saang lugar/purok/sitio sa barangay matatagpuan ang mga mayroong malnutrisyon?

Anu-ano ang mga sanhi ng malnutrisyon?

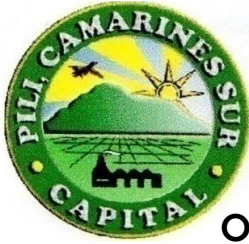

Anu-ano ang mga hakbang na ginagawa ng BNC upang matugunan ang malnutrisyon? Gaano ito ka-epektibo?

Anu-anong resources ang mayroon sa barangay para sa pagtugon sa malnutrisyon?

Anu-ano ang mga maaaring maging hadlang o balakid sa pagtugon sa malnutrisyon?

B. MALNUTRITION STATUS FROM 2022-2024

C.

The malnutrition status from 2022 to 2024 would consider various factors including global trends on the COVID 19 Pandemic and Climate change impacts. The COVID-19 pandemic exacerbated food insecurity, leading to increased malnutrition rates in many countries. While, climate change and conflict in certain regions have further impacted food production and access. Nutrition programs and interventions have aimed to address these disparities, but access and effectiveness vary widely. The barangay local government of Tampadong have intensified efforts to combat malnutrition through initiatives focused on food security, health care access, and education.

The following are the Contributing Factors on Malnutrition of Preschool children of Barangay Tampadong:

1. Lack of Information of proper nutrition
2. Financial concern/ Poverty
3. Sedentary lifestyle
4. Behavior of guardian/ parents towards proper nutrition

The Barangay Nutrition committee and the Local Government Unit of Pamplona conducted various nutrition programs and activities to eliminate malnutrition in the community. Overall, while there have been efforts to address malnutrition, significant challenges remain, and ongoing monitoring is crucial to adapt strategies effectively.

Below are the Summary of Operation Timbang results of Barangay Tampadong for 0-59 months children:

Nutritional Status	0-59 Months					
	2022		2023		2024	
	Total	%	Total	%	Total	%

E. PERFORMANCE OF BARANGAY WITH HEALTH, NUTRITION, SANITATION PROGRAMS

The performance of a barangay Tampadong with health, nutrition, and sanitation programs can be evaluated through various indicators. Here are some key aspects to consider:

1. Health Programs

- **Immunization Rates:** High coverage rates for vaccines among children indicate effective health initiatives.

FULLY IMMUNIZED CHILD INDICATOR:

BARANGAY	2022		2023		2024	
	FIC	(%)	FIC	(%)	FIC	(%)
TAMPADONG	31	67%	25	42%	10	20%

- **Maternal and Child Health:** Monitoring maternal mortality rates and child health outcomes can show the success of maternal care programs.

MATERNAL HEALTH INDICATORS:

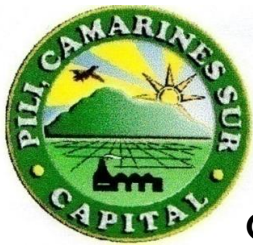

LIVEBIRTHS	2022	2023	2024
DELIVERIES	0	0	0
Facility Based Delivery	0	0	0
Skilled Birth Attendant	0	0	0
4 Ante Natal Care	0	0	0
2 Post Partum Care	23	35	22

- **Access to Healthcare:**

Total number of Nurse Assigned	1
Total number of BHW	6
Total number of BNS	1
Total number of Barangay Health Station	1

2. Community Engagement

- **Participation in Programs:** The level of community involvement in health, nutrition, and sanitation programs often correlates with their effectiveness.
- **Feedback Mechanisms:** Systems that allow residents to provide feedback can help improve the quality of services offered through Barangay Assembly.

VISION

A WELL-NOURISHED, HEALTHY, AND EMPOWERED COMMUNITY WHERE EVERY INDIVIDUAL—ESPECIALLY CHILDREN AND VULNERABLE GROUPS—HAS ACCESS TO NUTRITIOUS FOOD, QUALITY HEALTH SERVICES, AND OPPORTUNITIES FOR SUSTAINABLE WELL-BEING.

MISSION

TO IMPLEMENT RESPONSIVE, INCLUSIVE, AND SUSTAINABLE NUTRITION PROGRAMS AND SERVICES THAT ADDRESS MALNUTRITION, PROMOTE HEALTHY LIFESTYLES, AND STRENGTHEN COMMUNITY PARTICIPATION—ENSURING THAT NO ONE IN BARANGAY NEW SAN ROQUE IS LEFT BEHIND IN ACHIEVING FOOD AND NUTRITION SECURITY.

SPOT MAP

PROBLEM TREE ANALYSIS

Goals and Objectives

Objective for School Children – BNAP 2025

To improve the nutritional status, health, and academic performance of school-aged children in Barangay New San Roque by implementing school-based nutrition programs such as regular feeding, growth monitoring, nutrition education, and hygiene promotion by the end of 2025.

Specific Targets and Expected Outcomes:

Reduce the prevalence of undernutrition (wasting and stunting) among school-aged children by **at least 30%** by December 2025.

Achieve 100% participation of identified undernourished school children in the **barangay-based supplemental feeding program**.

Conduct quarterly growth monitoring (weight and height) for **at least 90%** of enrolled school children.

Implement monthly nutrition education sessions in coordination with schools and the Barangay Nutrition Scholar (BNS).

Ensure **all school children have access to safe drinking water and basic hygiene facilities** through partnerships with schools and local agencies.

Promote and support **at least 1 school-based or community garden** to provide fresh vegetables for feeding programs and nutrition education.

Objective for Preschool Children – BNAP 2025

To promote optimal growth and development among preschool children (ages 0–5) in Barangay New San Roque by ensuring proper nutrition, regular health monitoring, and early intervention through barangay-level programs by the end of 2025.

Specific Targets and Expected Outcomes:

Reduce the prevalence of underweight, stunting, and wasting among preschool children by **at least 40%** by December 2025, based on baseline data from 2024.

Ensure 100% enrollment of identified undernourished preschool children in the **Barangay Supplemental Feeding Program**, in coordination with day care centers and BNS.

Conduct monthly weight and height monitoring for at least 90% of all preschoolers in the barangay.

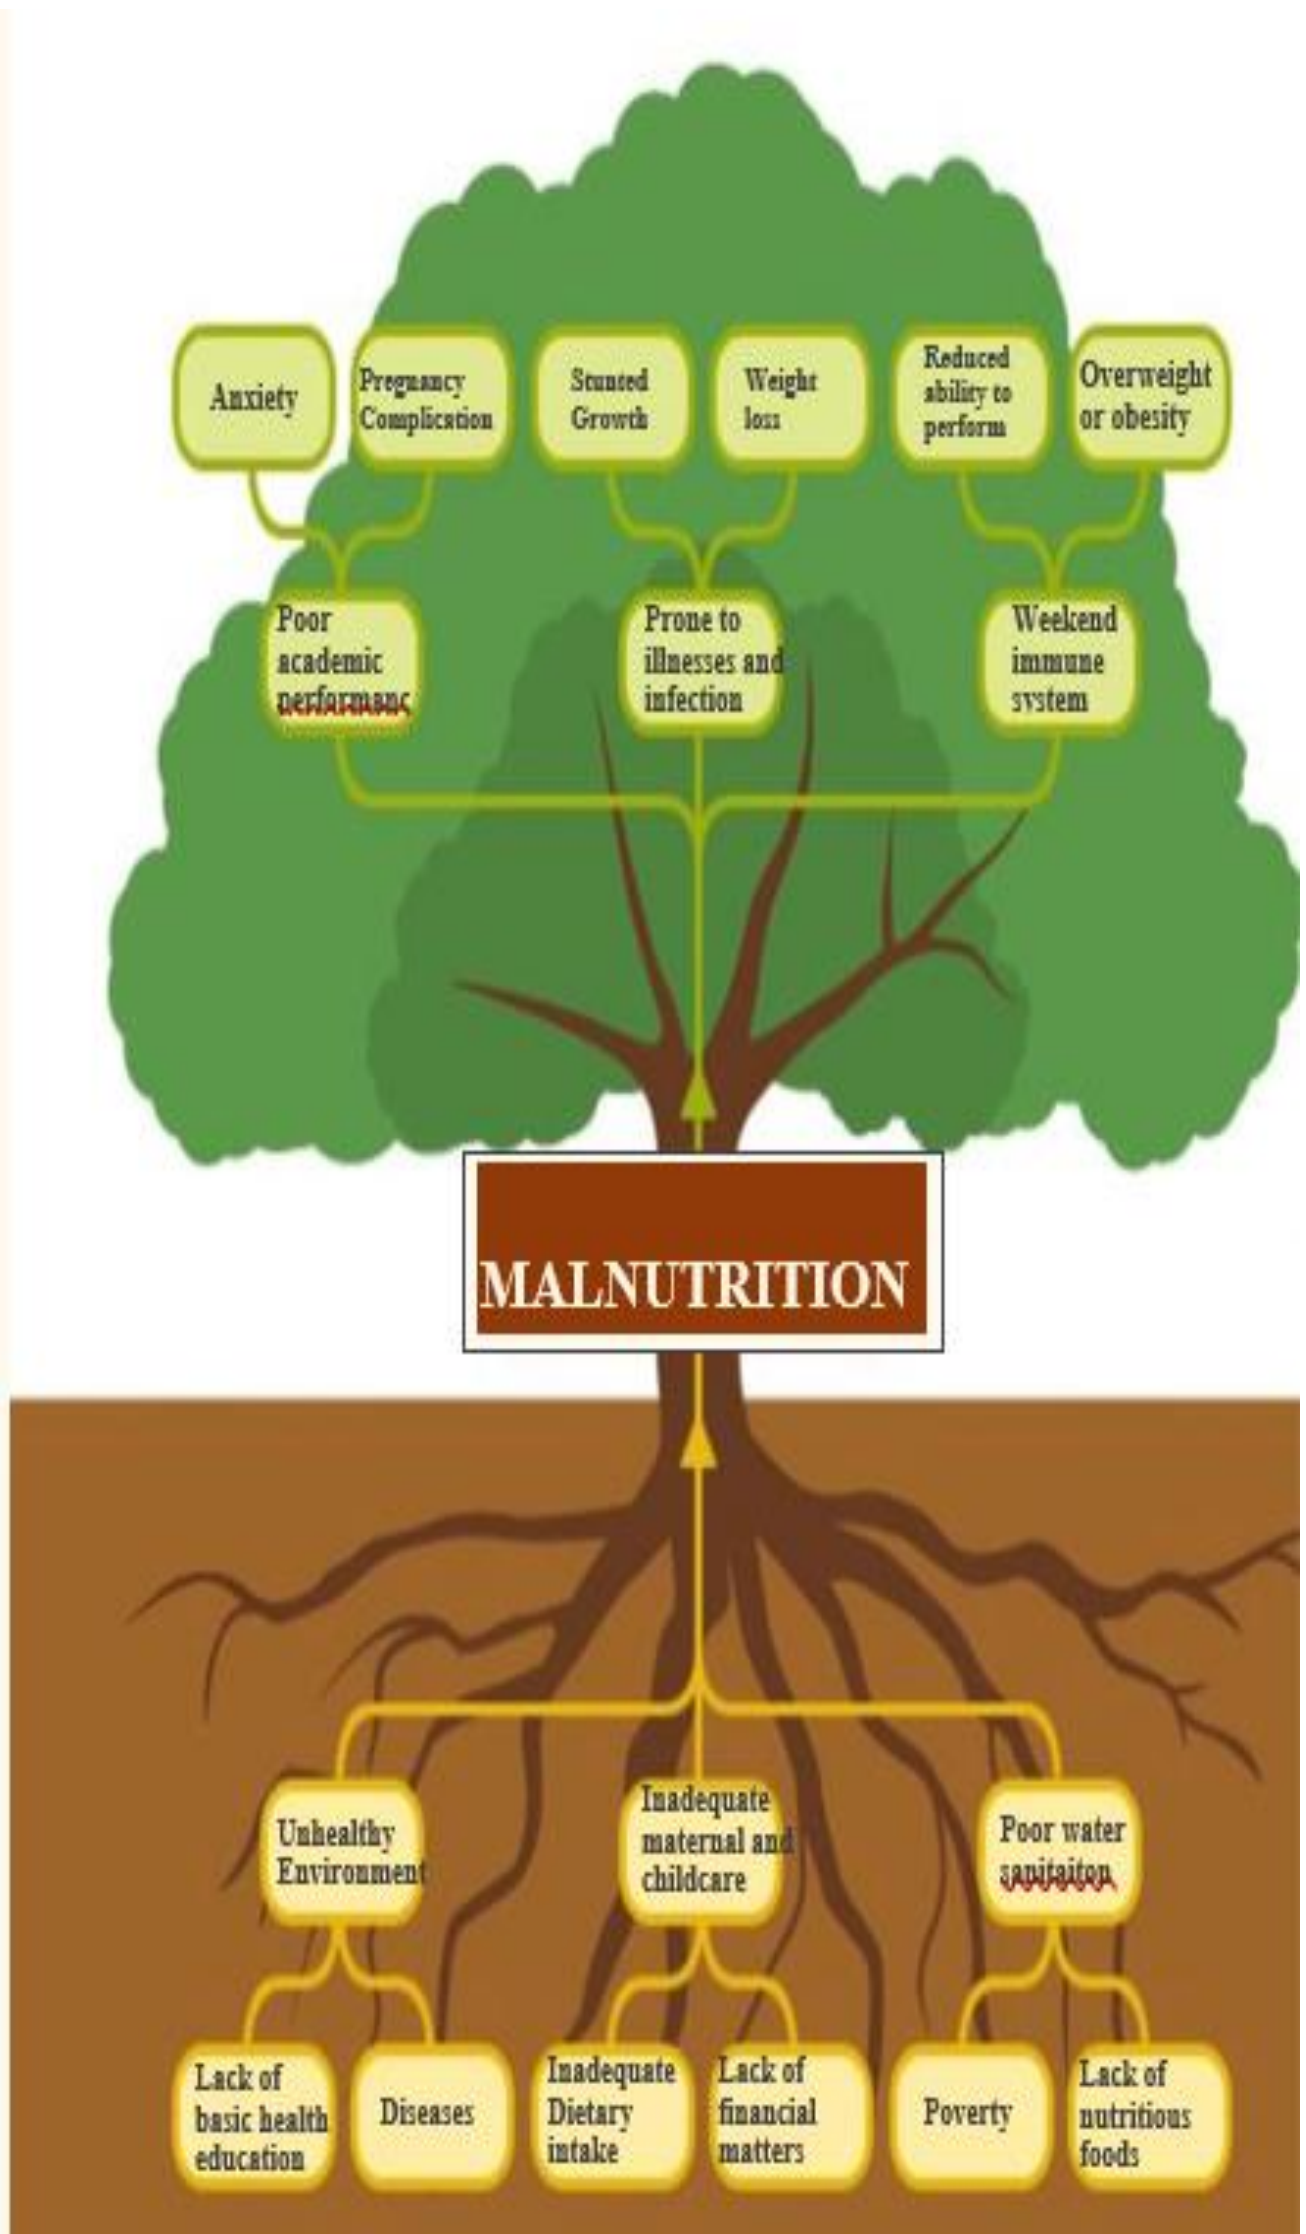

Distribute micronutrient supplements (such as Vitamin A and Iron) to **at least 95%** of eligible children aged 6 months to 59 months.

Conduct **quarterly parent education sessions** on infant and young child feeding (IYCF), meal planning, and hygiene for at least **80% of parents/caregivers**.

Promote **exclusive breastfeeding** for infants 0–6 months and **complementary feeding** practices for children 6–24 months through barangay health workers and mother support groups.

Establish or maintain at least **one Barangay Early Childhood Garden** to help supply fresh vegetables for use in feeding programs.

Series of 2025

**REORGANIZATION AND MOBILIZATION OF BARANGAY HEALTH AND
EMERGENCY RESPONSE TEAM (BHERT)**

WHEREAS, the Department of Health released on advisory on Influenza A (H1N1) giving warning of its spread and its fatal result due to severe respiratory distress or pneumonia;

WHEREAS, according to DOH, while there is no community level outbreak yet of the dreaded virus, monitoring and reporting are essential;

WHEREAS, DILG Memorandum Circular No. 2009-71 dated June 4, 2009 enjoining all local chief executives to mobilize Rural Health Units as reporting centers for cases of Influenza A (H1N1), and activate the Barangay Health and Emergency Response Teams to manage influenza A (H1N1) suspects and their contacts;

NOW THEREFORE, I Yolanda M. Beriña, Punong Barangay of New San Roque, Pili, Camarines Sur, by virtue of the powers vested in me by the Local Government Code of 1991 and other existing laws, do hereby recognize the Barangay Health Emergency & Response Team (BHERT).

Section 1. There is hereby reconstituted the Barangay Health & Emergency Response Team of Barangay New San Roque, Pili, Camarines Sur, composed of the following:

Chairman:	Hon. Yolanda M. Beriña	Punong Barangay
Members:	Kgd. Jennie A. Azor	Barangay Kagawad

Section 2. The BHERT is tasked to do the following:

1. Conduct visits in the home of every person arriving from Severe Acute respiratory Syndrome (SARS) affected countries
2. Immediately list down the person(s) that came in contact with the person prior to his arrival
3. Take daily temperature of the following person
4. Provide protective gadgets to the SARS case
5. Reports to the PB on measures or action taken

Section 3. This Executive Order shall take effect immediately.

Done this 3rd day of January, 2025 at New San Roque, Pili, Camarines Sur.

Hon. Yolanda M. Beriña
Punong Barangay
